Description

Perfect for your home or office workstation, the TLP615B Protect It! 6-Outlet Surge Protector features a surge suppression rating of 790 joules to defend your sensitive electronic components against strong surges and spikes. In fact, Tripp Lite will repair or replace any connected equipment damaged by surges, including direct lightning strikes, up to \$20,000 for life (valid in the U.S., Canada and Puerto Rico only).

The TLP615B includes full normal mode (H-N) and common mode (N-G/H-G) line surge suppression, as well as technology that filters out disruptive EMI/RFI line noise, preventing interference from disrupting your electronics and inflicting damage or data loss.

Your computer and peripherals plug into six NEMA 5-15R outlets, including one designed to accept bulky transformers without blocking adjacent outlets. Integrated 15-amp circuit breaker protects all outlets against dangerous overloads. Lighted on/off switch provides one-touch control over connected equipment. Green LED indicates protection status.

The 15-foot AC power cord with NEMA 5-15P plug allows the TLP615B to reach distant outlets, giving you flexibility in placing the power strip. Keyhole slots incorporated into the bottom panel provide convenient wall or desk mounting options for the black plastic housing.
