

SMA Adapter Kit Data Sheet

Product Description

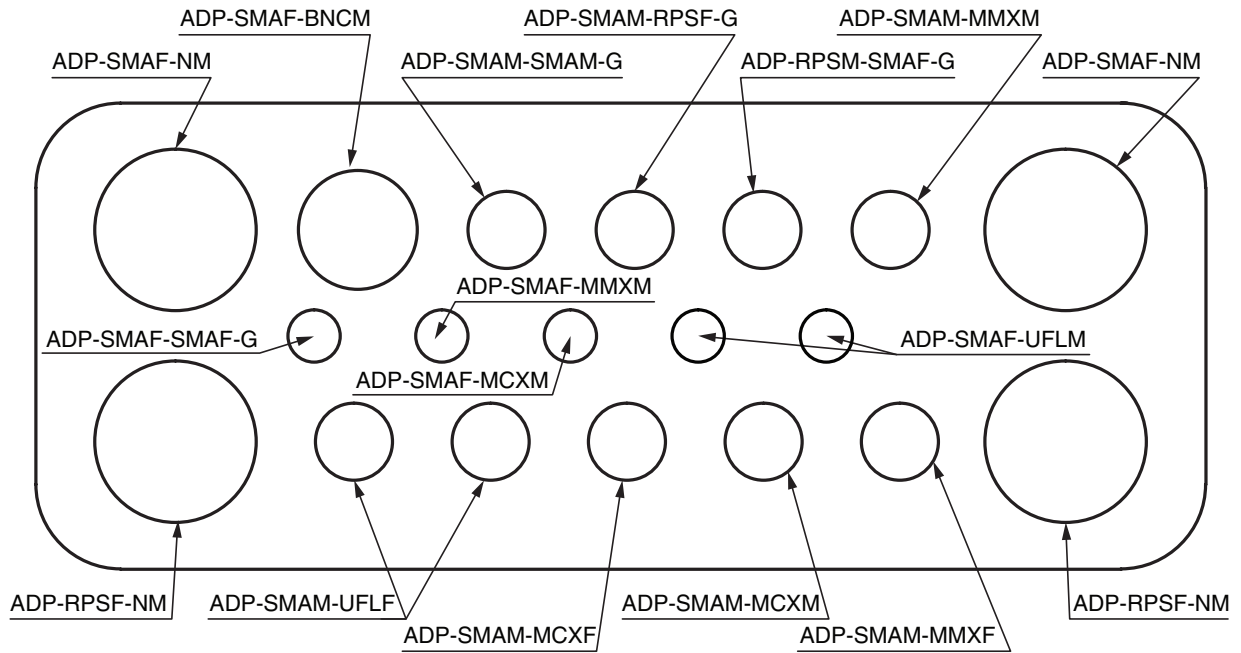

The most comprehensive kit on the market, the SMA Adapter Kit is the solution for connecting all widely used RF connector styles to standard SMA instrument and cable connectors. With 19 adapters in a convenient carrying case, the SMA Adapter kit is the only kit available with MHF/U.FL adapters. Avoid the hassle of searching for parts, save money, and reduce the frustration of piecing together or buying individual parts. The SMA Adapter Kit is a must-have for every RF test bench and makes wireless simple.
