## Overview

The PIC24FJ128GA310 Plug-in Module is designed to demonstrate the capabilities of the PIC24FJ128GA310 family using the Explorer 16 Demonstration Board. Most of the pins from the device (PIC24FJ128GA310) are mapped directly to the PIM connector (100-Pin ICE). The exceptions are those pins that are remapped to provide remappable functionality to the pins in the PICtail™ Plus socket. The table below shows the exceptions of the PIC24FJ128GA310 pins that are not directly connected to the ICE connector.
