QVGA Display Adapter Kit
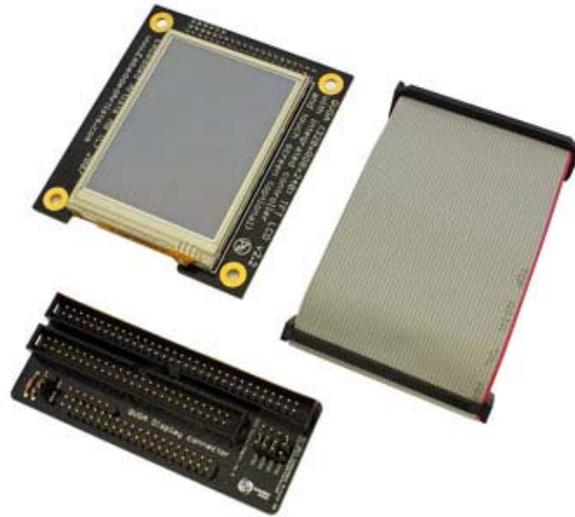

Price Information
EUR
Art.no: **EA-LCD-105** **Buy**

Embedded Artists' QVGA Display adapter lets you connect the 3.2 inch QVGA display to the OEM Base Board using the RGB interface. 16-bit color depth is supported. The OEM Base Board is used in the LPC1788 Developer's Kit. This kit contains the display adapter, an IDC Ribbon Cable, and the 3.2 inch QVGA LCD Display.
