

## 10-ohm 0.5%, 1%, 2%, 5% tolerance thick film current sense resistor

### features

- Marking: 1H: no marking on black protective coating  
1E, 1J: No marking on indigo protective coating.  
2A~W3A: three or four digit marking on indigo protective coating.
- Products with lead-free terminations meet EU RoHS requirements. EU RoHS regulation is not intended for Pb-glass contained in electrode, resistor element and glass.
- AEC-Q200 Qualified: 0402 (1E), 0603 (1J), 0805 (2A), 1206 (2B), 1210 (2E), 2010 (2H/W2H), 2512 (3A/W3A)

\* Parentheses indicate EIA package size codes.

\*\* 1H, 1E (F: ±1%) E-24 values only.

<sup>1</sup> Please refer to the "Higher Power Ratings" statement in the beginning of the catalog. Contact KOA prior to usage.

<sup>2</sup> SR73W3AS (2010 size, 1 Watt) with limited Resistance Range - contact factory for details.

Rated ambient temperature: +70°C

Rated voltage =  $\sqrt{\text{Power rating} \times \text{resistance value}}$  or max. working voltage, whichever is lower

## environmental applications

### Derating Curve

For resistors operated at an ambient temperature of 70°C or above, a power rating shall be derated in accordance with the derating curve.

For resistors operated at a terminal part temperature of described for each size or above, a power rating shall be derated in accordance with the derating curve.

Please refer to "Introduction of the derating curve based on the terminal part temperature" on the beginning of our catalog before use.

### Performance Characteristics
