Notes:

1. Output Connector option: terminal block is standard. For Molex header type, part number is PPWAM360-XX-H.
2. Output regulation is the total percentage of deviation from nominal output voltage under all operating ranges.
3. Measured at 20MHz bandwidth with a 100uF electrolytic capacitor and 0.1uF ceramic capacitor in parallel at the output connector.
4. Total output power is rated for 250W at convection and 360W with 20 CFM forced air. Refer to drawings for proper fan placement.
