

Analog Output MEMS Microphone Flex Evaluation Board User Guide

GENERAL DESCRIPTION

This user guide applies to the following MEMS microphone evaluation boards:

- EV_INMP404-FX
- EV_INMP405-FX
- EV_INMP504-FX
- EV_INMP510-FX
- EV_ICS-40180-FX
- EV_ICS-40181-FX
- EV_ICS-40310-FX

This is a simple evaluation board that allows quick evaluation of the performance of single-ended analog MEMS microphones. The small size and low profile of the flexible PCB enables direct placement of the microphone into a prototype or an existing design for an in situ evaluation. The evaluation board consists of a bottom port microphone soldered to a flexible PCB with color-coded wires attached. The only other component on the board is a 0.1 μ F supply bypass capacitor.

Table 1 describes the functions of the three connection wires. Table 2 describes the functional differences between the different microphones that are used with this flex circuit.

TABLE 1. PIN FUNCTION DESCRIPTIONS

Wire Color	Microphone Pin	Description
Red	VDD	Power Supply. 1.5 V DC to 3.6 V DC; (0.9 V DC to 1.3 V DC for ICS-40310)
White	OUTPUT	Analog Output Signal
Black	GND	Ground

TABLE 2. MICROPHONE FUNCTIONAL DIFFERENCES

Microphone	Maximum Supply Current	Maximum Output Voltage	Output Impedance	DC Offset
INMP404	250 μ A	0.18 V rms	200 Ω	0.8 V
INMP405	250 μ A	0.18 V rms	200 Ω	0.8 V
INMP504	225 μ A	0.18 V rms	200 Ω	0.8 V
INMP510	250 μ A	0.40 V rms	350 Ω	0.7 V
ICS-40180	260 μ A	0.40 V rms	350 Ω	0.7 V
ICS-40181	250 μ A	0.40 V rms	350 Ω	0.7 V
ICS-40310	25 μ A	0.12 V rms	4.5 k Ω	0.57 V

EVALUATION BOARD CIRCUIT

Figure 1 shows the schematic of the evaluation board, and Figure 2 shows the flex board layout. See the respective microphone data sheets for complete descriptions and specifications of the microphones. Note that the layout for the EV_ICS-40181-FX differs slightly from what is shown in Figure 2 because of this part's different package footprint, but the routing of the three signals is consistent.

REVISION HISTORY

REVISION DATE	REVISION	DESCRIPTION
10/14/2015	1.3	This v1.3 is the initial release in Agile. Previous revisions were uncontrolled.
03/26/2015	1.4	Updated part names, added Figure 5

COMPLIANCE DECLARATION DISCLAIMER
