

Datasheet: 84-7211.800 Aluminium Lens with Illumination Window

Description:

Anodised aluminium lens with translucent plastic illumination window. The window can be illuminated by fitting a single or bi-colour centre LED in the PCB mount switch (not supplied). Suitable for Series 84 PCB mount halo illuminated switches.

Assembly:

Fit the lens into the switch actuator (not supplied)
Once fitted the lens can not be removed without disassembling the switch.
