

→ Wireless Digital Extension for XD10 and XD26

- Wireless RF transmission of up to 8 digital inputs
- Use with Linx Technologies Keyfob transmitters at 418 MHz
- Transmission distances up to 100 feet
- Power supply via the controller
- Built-in antenna

Remote module

Part numbers

Type	Description	Supply	Part No.
XT01	Wireless digital extension	100-240 VAC controllers	88970826
XT01	Wireless digital extension	24 VDC controllers	88970881

General characteristics

Environmental characteristics

Certifications: complies with limits for Class A digital device pursuant to Part 15 of the FCC Rules

Operating temperature	-20 → +55°C
Storage temperature	-40 → +70°C
Protection	IP20

Input characteristics

Input type	8 digital
Receiver frequency	418 MHz
Maximum range	1000 feet
Typical range	100 feet

Transmitter parameters

Type	Linx type MS Keyfob Transmitter or compatible
Number of buttons	1 to 8

Comments
