AI CORE X

Deep Neural Networks Hardware accelerators

UP AI Core X series, powered by Intel® Movidius™ Myriad™ X VPU, drive the demanding workloads of modern computer vision and AI applications at ultra-low power.

An ultra-low power design	Performing high demanding tasks at 2.5W per chip	Neural Compute Engine	A dedicated hardware accelerator for running on-device deep neural network applications
Best performance and efficiency	Best performance per dollar and watts. Linear performance increase in multiple chip solutions	A small-area footprint	Very small footprint that can easily be integrated into existing products

* Works exclusively with UP Core Plus

UP is a brand of AAEON Technology Europe, an associate company of ASUS group, focused on Embedded Computing, Artificial Intelligence on the Edge, Internet Of Things and Industry 4.0. UP's mission is to spread the intelligence in all the world around us. UP bridges the gap between the world of prototypes and the world of high-grade mass-produced intelligent systems solutions. UP gives affordable and easily accessible and support of all the latest technologies to embedded industry.
