1933552-1, 1933553-1, 1933554-1, 1933555-1 1933556-1,  
1933557-1, 1933558-1

TE Connectivity's (TE) high density cable management is designed to simplify routing high density cabling between racks and bays. TE offers a wide variety of accessories and replacement parts for high density cable management products.

Replacement door kits are available for vertical cable managers which include upper and lower door sections.

Finger bracket kits are available which mount vertically, directly to a rack.

Cable spools offer a convenient way to spool excess fiber or copper cables within the vertical cable management channels. Each spool provides a 1.1 inch [28 mm] bend radius and each kit includes two spools, and mounting channels and hardware.

Also available are plastic fasteners which allow quick mounting of accessories and cable strap mounts which allow cable ties to be used in the cable management channels. Each of these is available in packages of 100, standard.

## **SPECIFICATION** (TEXT IN BRACKETS [ ] REQUIRES A CHOICE)

Cable management shall accommodate a high concentration of 4-pair cables. Cable managers shall be fitted with **[cable spools, cable tie mounts]**. Cable manager accessories shall be TE part number(s) **[1933553-1, 1933554-1, 1933555-1]**
