

KFM

KFM Magnifiers - the world's number one magnification system. As the most widely used magnification system, the KFM Series offers the greatest selection of primary and secondary lenses and is backed by more options and quality features than any other illuminated magnifier. KFM Magnifiers are well equipped to handle any magnifying challenge. ESD-Safe Models also available.

- 22-watt circline fluorescent lamp included
- Heavy duty cast alloy heads for durability and strength
- K-arm with internal springs individually calibrated for proper balance and long life
- A wide selection of lenses (1.75X to 6.0X when secondary lenses are used)
- 5" Diameter lens for 3- or 5-diopter models
- Secondary lenses available as 8 or 10 diopter add-ons
- Various arm lengths (30" or 45" extensions) and a wide selection of mounting options
- ESD-Safe Models - designed for use in static sensitive environments
- 5 year warranty
